P.1-11 UK/European Packages

(Piccadilly Radio Page 7)

P.12 Demo CD's

P.14 US/World Packages

Crtl+F To search list

All packages I list are (unless stated) the full package, with full mix-outs, acappellas etc. Those listed as Main Cuts generally only include the main on-air mix of each jingle.

Sound quality – If sound quality is less than perfect I will try and indicate this before trading. I will happily send a sample of any package before trading.

Total time will generally include the silence either side of cuts.

Please note that a very small number of packages are "embargoed" (not for trading) at the request of the person who supplied me with a copy.
